## *Seed Growers*

HUNTING PARK AVENUE at 18th STREET, PHILADELPHIA 32, PA., and COURT HOUSE SQUARE, CLINTON, IOWA

Cable Address—"Burpee" Philadelphia

Dear Friends:

Market gardeners and florists for the past few years have been receiving better prices for their products. This is as it should be, because you growers are skilled people who should be suitably rewarded. You also have probably more factors of chance involved in your livelihood than in any other industry.

You are receiving more for your products, but are also paying more for labor and materials. Laborsaving machinery is being employed wherever possible, and we are endeavoring to cooperate with you in every way possible in reducing material costs. Prices on Burpee seeds have not been raised except where absolutely necessary.

Probably the smallest proportion of your total operating cost is your seed expenditure. The quality of your seed, however, may be a controlling factor in either producing good or bad crops. When you use Burpee seeds you may be assured that no effort has been spared to furnish you with the best quality seeds that grow.

We hope we may continue to furnish your seed requirements and suggest that you send your order to Philadelphia, Pa., or Clinton, Iowa, whichever is nearer to you.

We wish you a very successful season.

Faithfully Yours,

*David Burpee*  
President

## 370 **Burpee Hybrid Cucumber**

**ORIGINATED ON BURPEE'S FORDHOOK FARMS**

Ready in 60 days. Vines are dark green, long-lived and bear an abundance of well formed, rich dark green fruits of handsome appearance—8 in. and more long, 2½ in. wide, blunt ends, with small seed cavity and crisp white flesh of excellent quality and delicious flavor. White spine, slicing type.

Burpee Hybrid is a first generation hybrid of the highest quality, prolific and highly resistant to mosaic and downy mildew. At Fordhook Farms, the Burpee Hybrid produced a higher total yield and larger percentage of fancy fruits than any other cucumber. Enthusiastic comments from home gardeners, commercial growers and experiment station trials show the Hybrid is most widely adapted.

½ oz. \$2.20; oz. \$4.35; ¼ lb. \$13.00; 1b. \$35.00

*Burpee Hybrid Cucumber in the foreground. Note how the vines are producing quantities of fruits after the open-pollinated variety in the background has ceased*

# Burpee's Early Flowering SWEET PEAS

*Varieties are arranged in each color class from deep to light shades*

Burpee's Early Flowering Sweet Peas come into bloom outdoors before the summer heat arrives—3 to 4 weeks earlier than the Giant Spencer varieties offered on pages 56 to 60. They are valuable for winter flowering under glass, also especially adapted for growing in frost-free sections and for earliest blooms outdoors in the North. Sweet Peas do best in cool weather. If seed was not sown in the fall, sow as early in the spring as the ground can be prepared. They prefer an open, sunny location, and deep, rich soil which must be well drained.

## White

**3390 Burpee's White** Magnificent large, frilled, pure glistening white flowers which are particularly sweet-scented. A splendid white-seeded white.

**3395 White Giant\*** Flowers are extremely large, of the purest white, and perfectly placed in fours on long, strong stems. An extra choice white-seeded white.

## Cream

**3334 Oriental** Deep cream or primrose flowers of large size and unusual beauty. Black-seeded.

## Fawn Pink

**3162 Golden Pink\*** Outstanding color—glowing golden or fawn pink; beautiful, especially under artificial light. Large, well-waved flowers.

**3309 World's Fair** Light golden cream faintly overlaid with a delicate suffusion of fawn, deeper toward the edges.

## Salmon Pink

Oz. 85¢; ¼ lb. \$3.25; lb. \$11.00

**3306 Pearl Buck\*** Rich warm rose standard with an orange tinge; wings are deep rose. Beautiful.

## Rose Pink

**3352 Annie Laurie** Large flowers of splendid form and pure rose-pink—the deepest shade in this color group.  
Oz. 35¢; ¼ lb. \$1.00; lb. \$3.50

## Spring Flowering Sweet Peas

Come into bloom outdoors between the Early and Giant Spencer classes. Plants are quite vigorous and what the flowers lack in size is made up by the heavy crop of blooms produced. Vines seem more heat resistant than other Sweet Peas. Under glass they are unusually free flowering and prolong the spring cutting season.

We offer three colors, each of which received an award in the All-America Selections:

3470 **Blue** Clear marine blue; free bloomer.

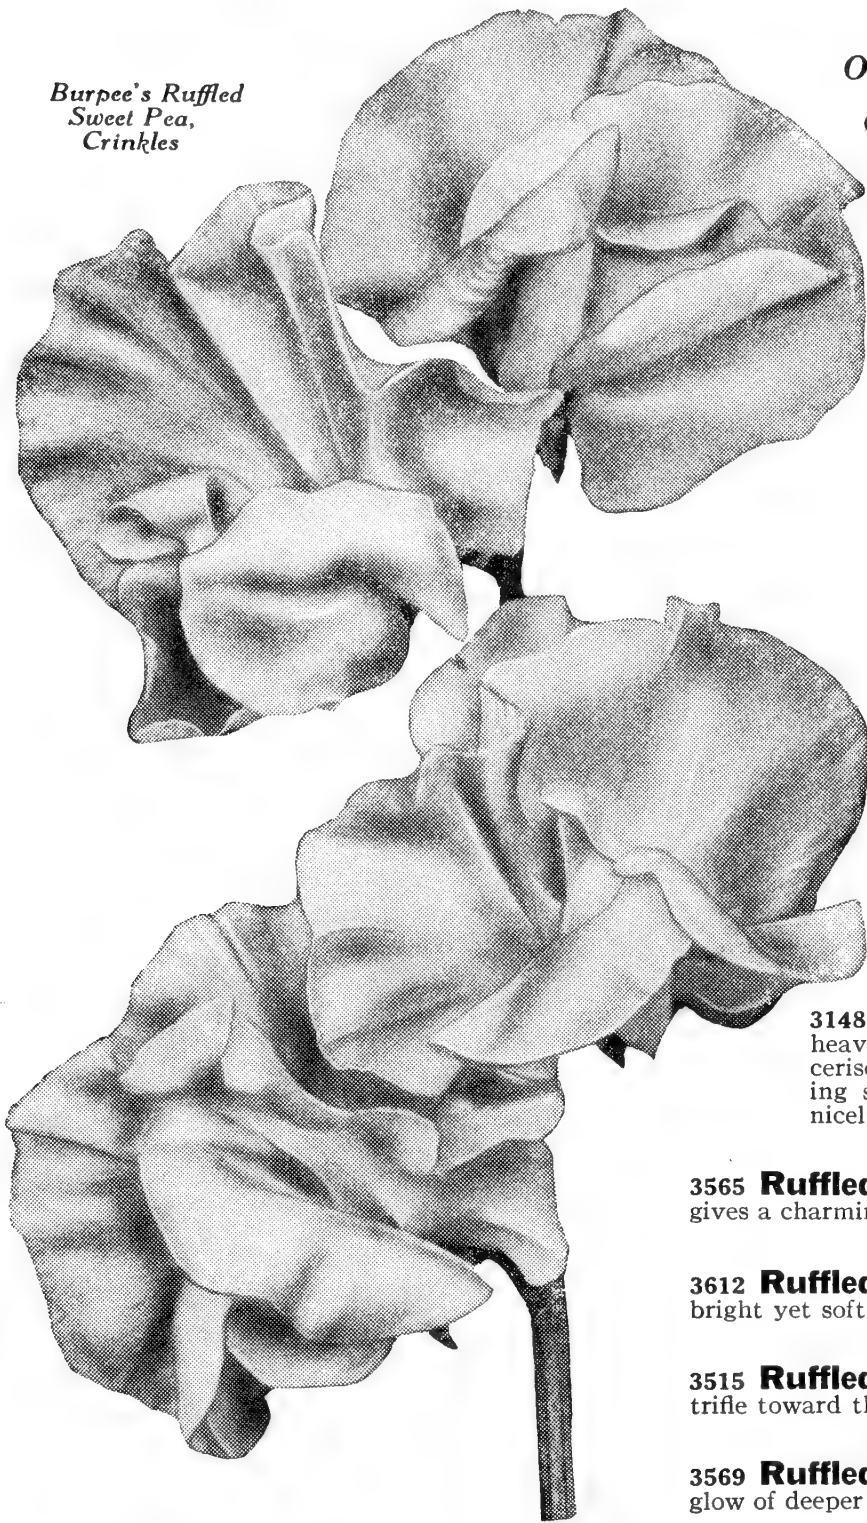

3479 **Lavender** Lovely soft shade of lavender.

3447 **Rose Pink** Beautiful rose-pink on white.
